

Patient Partner Physiotherapist

Full time, Liverpool NSW

360 Med Care is an innovative Australian company operating in the medical device, health care, and biotechnology sector specialising in total joint arthroplasty. We are driven to optimise the episode of care through the combination of people, knowledge and technology.

We are seeking engaging Physiotherapists to join our team. You will be responsible for end to-end clinical management of orthopaedic patients including pre-operative, intraoperative and post-operative care.

Are you a Physiotherapist who is looking for a challenge; a chance for continued learning and professional development without returning to formal education? Would you like to be part of a team that is unique to the Australian market, and a leader on the world stage? If so, this is the role for you.

Responsibilities:

- Work in a team of experienced Physiotherapists to provide end-to-end patient specific prehabilitation and rehabilitation programs that are delivered both face-to-face and via a telemedicine platform with a focus on optimising clinical and functional outcomes.
- Work directly with leading orthopaedic surgeons to improve patient outcomes.
- Attend surgical procedures and assist surgeons and hospital staff on the use of products including custom instrumentation, navigation systems, robotics, and interpreting surgical plans.
- Use of various technologies to monitor patients and create personalised treatment plans and goals.
- Work alongside world class biomedical engineers that create patient specific 3D surgical plans.
- Use pre-operative patient profiling and shared decision-making tools to help patients and their Orthopaedic Surgeon make great treatment choices.

About the role:

- Full time position - located in Liverpool with local travel, including servicing surgeons in Penrith. Occasional travel to Sydney for team meetings.
- Reports to the Patient Partner State Manager.
- Competitive salary package including base salary, car allowance, & superannuation.
- Annual leave & personal leave including all statutory entitlements.

Unique about the role and working at 360:

- 360 Med Care is a dynamic company where you will be interacting with, engineers, clinical specialists, surgeons and other interesting people.
- As a Patient Partner you will be applying clinical knowledge to provide the best care without having to use manual therapy.
- The role is varied, different projects and responsibilities outside of seeing patients.
- We have a great supportive team environment where staff strive to challenge and become the best versions of themselves.
- Great social interactions and interesting and ground-breaking technological advancements.
- Develop your skills in using technology within healthcare.

Required skills:

- A tertiary qualification in Physiotherapy.
- Registration with the Australian Health Practitioner Regulation Agency (AHPRA).
- A minimum of two-year clinical experience, with desirable experience in acute orthopaedics / orthopaedic rehabilitation / musculoskeletal outpatients.
- Experience in-theatre is highly regarded.
- Passion for biomedical innovation and technology.
- A willingness to engage in product development.
- Ability to prioritise, problem solve, work collaboratively, be pro-active and influence.
- Ambitious, hard-working and enjoy a challenge.
- Comfortable using technology.
- Great written and verbal communication skills.
- Self-starter, work independently.
- Enthusiasm for business development.
- Australian work rights.

If you feel you are up for a great challenge, please send your resume and cover letter to [**hr@360med.care**](mailto:hr@360med.care)
