# Software Developer

Full time, Pymble NSW

*360 Med Care is an innovative Australian company operating in the medical device, health care, and biotechnology sector specialising in total joint arthroplasty. We are driven to optimise the episode of care through the combination of people, knowledge and technology.*

We are seeking a junior software developer who is looking for the next step in their career progression. This is a hands-on development and leadership role working with a number of dynamic projects in the healthcare space. Your work will lead to innovation and execution of cutting-edge technologies utilised to improve real patient experiences across Australia and beyond.

## Key responsibilities

- Developing scientific and medical software within the Unity environment
- Particular focus on 3D geometrical mesh manipulation and mathematical calculations, and user interface development to make the outputs interpretable by end-users
- Work within an Agile team environment with both in house and remote developers
- Implement automatic and unit testing procedures, as well as working with a team on protocols for any manual testing required for feature release.

## Experience

- C# programming experience within a Unity environment
- Strong understanding or willingness to learn 3D transformation and visualisation mathematics

## About You

- Driven to succeed in a role where you are challenged to further your programming skills, as well as orthopedics.
- Ready to teach, motivate, celebrate and advocate for the success of your team and individual team members

- An active communicator at every stage of the project both with the team and external stakeholders
- Comfortable working in a fast-paced environment where priorities and context can shift at a moment's notice

*At 360 Med Care, our people ambition is to have an exceptional team, who challenge the status quo, are growth focused and help lead our purpose of optimising the episode of care. We are committed to our values of Challenge, Innovation and Ambition and delivering a positive employee experience.*

If you feel you are up for a great challenge, please send your resume and cover letter to **hr@360med.care**
