

Patient Partner Physiotherapist

Fixed Term Contract – 12 months, commencing September 2022

Brisbane QLD, Mon - Friday

360 Med Care is an innovative Australian company operating in the medical device, health care, and biotechnology sector specialising in total joint arthroplasty. In 2022, we were acquired by Enovis and now operate under their global umbrella.

Seeking engaged physiotherapists for maternity leave cover. You will be responsible for end to-end clinical management of lower limb orthopaedic patients including pre-operative, intraoperative and post-operative care.

This fixed term role will allow you to engage with a technology driven patient management model within an established care continuum. Explore new ways of working, new ways to apply physiotherapy outside of manual manipulation and get to know key players in the field.

Responsibilities:

- Work in a team of experienced Physiotherapists to provide end-to-end patient specific prehabilitation and rehabilitation programs that are delivered both face-to-face and via a telemedicine platform with a focus on optimising clinical and functional outcomes.
- Work directly with leading orthopaedic surgeons to improve patient outcomes.
- Attend surgical procedures and assist surgeons and hospital staff on the use of products including custom instrumentation, navigation systems, robotics, and interpreting surgical plans.
- Use of various technologies to monitor patients and create personalised treatment plans and goals.
- Work alongside world class biomedical engineers that create patient specific 3D surgical plans.
- Use pre-operative patient profiling and shared decision-making tools to help patients and their Orthopaedic Surgeon make great treatment choices.

About the role:

- Fixed term of 12 months, ideally commencing in September 2022. Possibility of extension.
- Full time hours Monday – Friday, with flexibility to set your own schedule.
- Located in the Brisbane area with local travel (car allowance included in package). Some travel to Pymble NSW for team meetings.
- Competitive salary package.

Unique about the role and working at 360:

- 360 Med Care is a large dynamic company where you will be interacting with, engineers, clinical specialists, surgeons and other interesting people.
- As a Patient Partner you will be applying clinical knowledge to provide the best care without having to use manual therapy.
- The role is varied, different projects and responsibilities outside of seeing patients.
- We have a great supportive team environment where staff strive to challenge and become the best versions of themselves.
- Great social interactions and interesting and ground-breaking technological advancements.
- Develop your skills in using technology within healthcare.

Required skills:

- A tertiary qualification in Physiotherapy.
- Full, unrestricted registration with the Australian Health Practitioner Regulation Agency (AHPRA).
- Two-years of clinical experience, with desirable experience in acute orthopaedics / orthopaedic rehabilitation / musculoskeletal outpatients.
- Experience in-theatre is highly regarded.
- Passion for biomedical innovation and technology.
- Ability to prioritise, problem solve, work collaboratively, be pro-active and influence.
- Ambitious, hard-working and enjoy a challenge.
- Comfortable using technology.
- Great written and verbal communication skills.
- Self-starter, work independently.
- Australian work rights.

If you feel you are up for a great challenge, please send your resume and cover letter to hr@360med.care
